

## Hire Station and MEP make an impact at the Building Service Show

*Following our significant investment in low level access with Power Tower, Hire Station and MEP both exhibited at the M&E Building Services Event at Olympia. The exhibition attracts potential customers from a wide range of disciplines and is attended by over 300 exhibitors, though Hire Station was the only major tool hire company present.*

Following Hire Station's significant investment in low level access with Power Tower, Hire Station and MEP both exhibited at the M&E Building Services Event at Olympia.

The exhibition attracts potential customers from a wide range of disciplines and is attended by over 300 exhibitors, though Hire Station was the only major tool hire company present.

In addition to the Power Tower Nano products, Hire Station also exhibited a lower level highly portable product prototype which attracted a good deal of interest.

We are already talking to a number of leads who visited us at Olympia and hope that we are successful in opening up new revenue streams from non-construction markets as a result.
